About Seqrite HawkkEye

With cyber threats constantly evolving, getting smarter, and more sophisticated, it's time you get holistic visibility of security posture in one place to mitigate risks before it becomes a disaster.

Seqrite HawkkEye is a cloud-based platform that will enable coordination between different security layers, integrate cybersecurity silos into a single pane of truth, and ensure your point products communicate with each other to consolidate alerts, identify risks, and convert the data into intelligence.

Seqrite HawkkEye will enable your business to prevent real-time malware breaches, make insight-driven decisions, and accelerate vital security functions quickly and effectively with just a few clicks.

Supported Seqrite Products

With Seqrite HawkEye 1.3.0, you can manage the following Seqrite products:

- Seqrite Endpoint Security (Cloud) with DLP as add-on
- Seqrite HawkEye
- Seqrite mSuite
- Seqrite Workspace
- Seqrite HawkScan
- Seqrite HawkProtect

HawkkEye Features

Seqrite HawkkEye 1.3.0 offers the following features:

- Help Desk representative accessibility changes : Help Desk representative cannot add/edit/delete users with Admin roles.
- 2FA changes to enhance user experience
- Optimization of Resend activation link flow. Delay in appearing the success prompt is minimized.

Known Issues

- 2FA is enabled by default. There is no option to disable 2FA from UI.
Workaround – 2FA can be disabled from backend support so please contact Seqrite support.

Technical Support

Seqrite provides extensive technical support for its users. In case you face any technical issue, you can contact our Technical Support center using the options available at the following URL:
