About Seqrite HawkkEye

With cyber threats constantly evolving, getting smarter, and more sophisticated, it's time you get holistic visibility of security posture in one place to mitigate risks before it becomes a disaster.

Seqrite HawkkEye is a cloud-based platform that will enable coordination between different security layers, integrate cybersecurity silos into a single pane of truth, and ensure your point products communicate with each other to consolidate alerts, identify risks, and convert the data into intelligence.

Seqrite HawkkEye will enable your business to prevent real-time malware breaches, make insight-driven decisions, and accelerate vital security functions quickly and effectively with just a few clicks.
