## Introducing Seqrite Endpoint Security Cloud

---

Seqrite Cloud is an integrated solution that allows the management and regulation of multiple Endpoint Security products deployed at different geographical locations. IT administrators from any location can easily connect to the cloud to view the latest security status, configure product policies, receive notifications and rectify critical network events from one single dashboard. It also facilitates policy configuration, backup and more on the cloud for Seqrite products.

### Available flavors

Seqrite Endpoint Security Cloud is available in the following flavors:
